## Color DLP GD 320C Digital Label Printer

The Colour DLP GD 320C is a multifunction, reel to reel, high efficiency Label Printer. The DLP features a high quality resolution with 1200 x 2400dpi and a self-scanning LED chip with ASC Driver.

- Media Width: Min – 140mm, Max – 340mm.
- Print Width: Min – 130mm, Max – 304mm.

The PhaserMatch 5 colour management system combined with a user friendly media software interface provides the Operator with the tools to deliver the best possible reproduction of your printed Labels.

The DLP has a small foot-print although has a 320mm print width providing Digital printers with a low cost high quality solution for their 'print to order' Label needs.

# 2

## Digital Finisher GE-DDLF330

The GE-DDLF330 is a compact, low priced, reel to reel solution for your label cutting needs.

- Maximum Web Width 330mm
- Unwind Roll Max OD: 400
- Rewind Roll Max OD: 350mm
- Laminate Roll Max OD: 350mm

Utilising a Servo driven semi-rotary die cutting operation without the need for expensive tooling the DDLF uses flexible dies to convert your printed or blank labels.
